

JOURNALING PROMPTS

Reflection prompts for each module | Beyond Fortune Telling

Module 1 - Your First Reading

Before you knew any card meanings, what did your intuition tell you when you first looked at your card?

What surprised you about trusting your first impression over a memorised definition?

How did it feel to read for yourself without a safety net of 'correct' answers?

Module 2 - The Language of the Cards

Which suit do you feel the most natural connection to, and why?

Which suit feels the least familiar to you right now?

Pick one card from the Major Arcana and one from the Minor Arcana. What energy does each carry for you personally?

Module 3 - Numbers and What They Tell You

Pull three numbered cards. Write a short reading for yourself using only the element plus the number formula.

Which number in the sequence (Ace through Ten) do you feel most drawn to at this point in your life?

Where in your own life right now do you recognise the energy of a five (conflict) or an eight (movement and mastery)?

Module 4 - Walking Through the Numbered Cards

Flip through the numbered cards of the deck without sorting them. Which card's image stops you in your tracks, and why?

Choose one Ace. What is beginning for you right now that matches its energy?

Choose one Ten. What has reached completion for you recently, for better or worse?

Module 5 - Demystifying the Court Cards

Pull a court card. Does it represent you, someone else in your life, or an energy you're currently lacking?

Which of the four ranks (Page, Knight, Queen, King) do you most naturally embody day to day?

Which rank do you find hardest to access, and what would it look like if you called on that energy this week?

Module 6 - The Major Arcana and the Fool's Journey

Which of the three chapters, exterior, interior, or spiritual, do you feel you are living through right now?

Pull a Major Arcana card. Which chapter does it belong to, and is it near the start or the end of that chapter's lessons?

Looking back at your own life, which Major Arcana figure (the Hermit, the Tower, the Star, and so on) shows up as a recurring teacher for you?

Module 7 - Spreads

Try the past, present, future spread for yourself. What does the present card reveal that you hadn't consciously acknowledged?

If you could only ever ask tarot one type of question for the rest of your life, what would it be, and why?

Notice your own reaction to today's cards. Where does your intuition want to add colour beyond the 'textbook' meaning?

Module 8 - Bringing It All Together

Do a full reading for yourself using a spread of your choice. Write it out as if you were reading for someone else.

What is one thing you now understand about tarot that you didn't before you started this course?

What is the one question about tarot you still want answered as you continue practising?
